01 Summary

Crypto Buddies is a collecting and idle game built as a Telegram Mini App. Collected characters earn small dollar amounts that are paid out automatically in TRX.

The game is free to play: diamonds come from the daily bonus, ad videos and invites. It is funded by advertising.

No own token · Not an investment · No download · English & German

02 How it works

Four steps that repeat over and over.

1

Collect diamonds

Daily bonus, ad videos and invites earn diamonds.

2

Open packs

Every pack contains one Buddy. The first one is free.

3

Level up

Use diamonds to reach level 500. Every level raises earnings.

4

Earn

Credited every 4 hours, paid out in TRX automatically from $1.

↻ More earnings mean more fun – and more Buddies mean more earnings.

12 Risks and legal notes

Crypto Buddies is a game, not a financial product.

⚠️ No guaranteed returns

Earnings depend on the operator’s revenue and may be changed or discontinued.

⚠️ Price risk

Payouts are made in TRX. Their dollar value fluctuates after payout.

⚠️ Third parties

Payouts via @CryptoBot, ads via AdsGram or Monetag. Outages there affect the game.

⚠️ Randomness

Packs contain random Buddies. Purchased diamonds are non-refundable.

⚠️ Legal

A real-money shop may count as gambling in some countries and stays off until reviewed. No own crypto token.

⚠️ Age
